

## FWSG 63

### Ξύστρα για σωλήνες d 20 - d 63 (1/2" - 2" IPS)

For the reliable removal of the oxide layer of HDPE and PE-Xa pipes. Scraper blade made of carbide designed as reversible blades with 2 cutting edges (twice the service life). Universal scraping ranges, no dimension adjustment required. Even swarf removal thanks to a spring-loaded scraper blade and automatic feed. The tool is delivered in a transport box.

## FWSG 63

### Ξύστρα για σωλήνες d 20 - d 63 (1/2" - 2" IPS)

#### Application

FRIATOOLS scraper tools for the perfect preparation of HDPE pipe surfaces: Consistently uniform removal of oxide layers for the perfect electrofusion.

#### The crucial difference

Having the correct tools to perform installation on site makes all the difference. We see ourselves as specialists in the electrofusion of HDPE piping systems, so our development work has also included equipment and accessories for your needs from the very outset.

We know exactly what matters and what is needed in the field, and we can offer you a range of equipment tailored to the daily challenges encountered on the building site:

FRIATOOLS scraper tools for all pipe diameters and for a wide range of scrape lengths and saddle surfaces. These safeguard a uniform removal of material and reproducible quality for the optimal processing and reliable fusion of HDPE pipes.

Put your trust in tools that produce the perfect results.

#### Good reasons for the FRIATOOLS scraper tools FWSG 63:

Reliable removal of oxide layers on PE 80, PE 100, and PE-X pipes

Scraping of the entire nominal diameter range d 20 - d 63 (1/2" - 2" IPS)

Universal scraping areas, no dimensional adjustment required

Scraper blade made from wear-resistant carbide resulting in long service life

Replacement blade with second cutting edge for double tool life

Automatic compensation of pipe ovalities and tolerances

Consistent swarf removal due to spring mounted scraper blade and automatic feed

Easy handling with little effort

Easy to maintain, e.g. by simply replacing of worn scraping blades

Delivery in practical aluminum transport case
