

FRIALOAD

Clamping System (Vacuum Load)

For the assembly of:

- FRIALEN spigot saddles SA VL d 400 - d 1200 with outlet d 160 - d 400
- FRIAFIT sewage saddles ASA VL d 200 - d 630 with outlet d 160 and d 225

Note:

Battery-operated component **PUMP** generates and regulates vacuum fully automatically for the joining pressure. No additional power source required.

PLATE (d 325 and d 400) allow the processing of all with VL marked saddles. Outlet dimensions from d 160 to d 400.
