

# CMIV - Compact diaphragm valve DN 12:15

Compact diaphragm valve with female ends for solvent welding, metric series.

#### **EPDM**

## CMIV - Compact diaphragm valve DN 12:15

- · Handwheel in PA-GR, completely sealed, high mechanical strength with ergonomic grip for optimum manageability
- Integrated adjustable torque limiter designed to prevent excessive compression of the diaphragm and always guarantee a minimum fluid flow
- Optical position indicator supplied as standard
- Bonnet in PA-GR with STAINLESS steel nuts fully protected by plastic plugs to eliminate zones where impurities may accumulate.
  Internal circular and symmetrical diaphragm sealing area
- · STAINLESS steel bolts, can also be inserted from above
- · Threaded metal inserts for anchoring the valve
- Connection system for solvent weld and threaded joints
- Extremely compact construction
- · Internal operating components in metal totally isolated from the conveyed fluid
- · Valve stem in STAINLESS steel
- · Compressor with floating diaphragm support
- Easy to replace diaphragm seal
- · Corrosion-proof internal components
- CDSA (Circular Diaphragm Sealing Angle) system offering the following advantages:
  - · uniform distribution of shutter pressure on the diaphragm seal
  - $^{\circ}$   $\,$  reduction in the tightening torque of the crews fixing the actuator to the valve body
  - reduced mechanical stress on all valve components (actuator, body and diaphragm)
  - easy to clean valve interior
  - · low risk of the accumulation of eposits, contamination or damage to the diaphragm due to crystallisation
  - operating torque reduction
