

M9.20.PX – M9.20.WX

Battery Powered Flow Monitor

Reference	tooltiplmage	system	Category	family	series	Mounting	Power supply	Sensor Input
M9.20.P1	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ ORP, Conductivity measurement and control	Panel	Battery Powered	Flow (Frequency)
M9.20.W1	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ ORP, Conductivity measurement and control	Wall	Battery Powered	Flow (Frequency)

M9.20.PX – M9.20.WX

APPLICATIONS:

- Remote distribution system
- Mobile monitoring system
- Irrigation & Fertigation
- Groundwater remediation
- Swimming pool & SPA
- Liquid delivery system

MAIN FEATURES:

- Wide display
- Long-lasting battery
- Installation flexibility
- Multilanguage menu
- No data loss at battery replacement
- USB port for software updating
