

# M9.20.XX

Battery Powered Flow Monitor Field Mount

Reference	tooltiplmage	system	Category	family	series	Sensor Input
M9.20.01	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)
M9.20.02	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)
M9.20.03	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)
M9.20.04	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)
M9.20.05	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)
M9.20.06	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)
M9.20.07	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)
M9.20.08	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)
M9.20.09	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)

# M9.20.XX

Reference	tooltipImage	system	Category	family	series	Sensor Input
M9.20.10	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)
M9.20.11	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)
M9.20.12	-	Automation system	FLS Measurement and control Instrumentation	Monitors and transmitters	Monitors for Flow, pH/ORP, Conductivity measurement and control	Flow (Frequency)

## M9.20.XX

### APPLICATIONS:

- Remote distribution system
- Mobile monitoring system
- Irrigation & Fertigation
- Groundwater remediation
- Swimming pool & SPA
- Liquid delivery system

### MAIN FEATURES:

- Wide display
- Long-lasting battery
- Installation flexibility
- Multilanguage menu
- No data loss at battery replacement
- USB port for software updating
